OBSERVER STEAM PRINTING ESTABLISHMENT,
1873.

TWENTY-FIRST ANNUAL REPORT
OF THE
AUDITING COMMITTEE
OF THE
RECEIPTS AND EXPENDITURES
OF THE
TOWN OF SWAMPSCOTT,
FOR
THE YEAR ENDING FEBRUARY 28,
1873.

SALEM, MASS:
OBSERVER STEAM PRINTING ESTABLISHMENT,
1873.

SELECTMEN'S ANNUAL REPORT.

GRAVEL PITS.

Having been directed to secure one or more gravel pits for the use of the town, we have endeavored to comply with our instructions, and have made a pretty thorough search within the limits of the town, but with rather indifferent success.

At the time we received our instructions, we were at a season when the immediate wants of the Surveyor were urgent, and any delay at that time implied a delay of nearly one year.

We therefore made temporary arrangements with Mr. E. B. Phillips, whereby we were to take from his pasture, what gravel we wanted for immediate use, and if we could not agree upon terms of purchase, no expense was to come upon the town. And as no arrangement has been concluded with Mr. Phillips, the case still remains open for negotiations.

After several ineffectual attempts to trade with the Hon. E. R. Mudge, he met your Selectmen at Town Hall, February 1, and there it was made apparent that no part of his estate affords a supply of gravel of any amount, except his lawn and the hill in the rear of his dwelling.

As the lawn could not be thought of in that connection, the hill in the rear was accepted as our only chance of success; and as Mr. Mudge had a plan to run a street through the top of the hill northward to Stetson street, we arranged with him to have a survey, in which the town will join and establish a grade and plan for a street at an easy grade to get to and from our highlands and Stetson street, and ultimately to the Depot, by which arrangement we expect to have a supply of

gravel on the north side of said street, which may be bought of Mr. Mudge, as we understood him, for a fair consideration.

But as the supply of gravel must necessarily be limited within the town, we would recommend the town meeting to authorize its Selectmen to purchase of Mr. Goldthwait or John Hooper, a piece of land in Marblehead, near the junction of Salem and Brookhouse streets, which we have reason to believe is better gravel to mend our roads with than any we have found, and can be bought at a much less price than any to be found in town; and by so doing we shall provide for future contingencies.

CEMETERY.

Having bought the lot of land adjoining the Cemetery, as instructed by the Town at the annual meeting, we found in looking up the title that Mr. Silver had a right of way through the lot to land in the rear, and learning that a bond was holden by Mrs. Weeks by which the land in the rear was to revert to Dennis Lyons or his assignees at the expiration of ten years from its date, by the payment of twenty-five dollars, we have succeeded in having the bond transferred with the land to the town, by which means we hope to get rid of the right of way.

As the old Cemetery is very nearly all taken up, we would call your attention to the necessity of an appropriation, and a committee to lay out and grade the new lot the coming season; and that a very careful estimate of the present and prospective cost of the lots be made, and the price fixed at some town meeting, or by some commission appointed for that purpose.

And we would recommend the repair and removal or the sale of the Hearse House, as in its present condition it seems neither useful or ornamental.

THE LIBRARY,

Being next to our schools the best vehicle for the diffusion of useful knowledge among our people, and being nearly self-

supporting, no valid objection can be urged against a trifling expense in maintaining and extending its present usefulness, which can be done by a small annual expenditure for the newest and best publications as they come from the press. And we recommend an appropriation sufficient to enlarge the present room, and afford its patrons a better opportunity for the selection of books than can be enjoyed in its present narrow limits.

THE ENGINE HOUSE AND POUND

we would recommend be removed to the town lot on New Ocean street, as being as good a location for either as the present, and as saving the rent paid for the land where they are at present.

THE INTRODUCTION OF WATER.

No reply has been received from Lynn or Salem in answer to our application for water for the use of the town, and we feel constrained to call the attention of the citizens to what may be considered the importance of having our town furnished with a steam fire apparatus, and the introduction of water for the suppression of fire, as a better investment than money paid for doubtful insurance policies on the public property.

The action of the town meeting Oct. 31st, 1871, in relation to meeting the County Commissioners on their order of notice on petition of E. R. Mudge and others, was such that the case went by default, and at the next meeting, Oct. 31st, 1872, we met the Commissioners on the premises and protested against the expense likely to be incurred by the town, and induced them to have a survey and plan that would more fully illustrate the expense and benefits likely to be derived from any alteration they could make; and the meeting was adjourned to Nov. 21st, at Salem, at which time the matter was postponed for a further alteration in the plans, which have not yet been completed; and we do not consider that any action of the town, would at this stage of the case, materially alter it.

We feel that the annual increase of the town debt is a matter not fully appreciated by ourselves, but may be by posterity ; and would suggest either the payment of some portion of it each year, or an appropriation of a contingent fund to be used for such improvements as are authorized after the annual appropriations are made.

We wish once more to call the attention of parents whose little ones are near their schools, to the forlorn condition of a portion of our little charges at the north part of the town, who still have to wend their weary ways through pathless snows over and across the railroad to the west end school, or (worse yet) to the town hall, and whose prayers and petitions although gracefully uttered are never answered.

The foregoing together with the following report of the Auditing Committee, is respectfully submitted for the consideration of the citizens at the annual meeting.

BENJ. POTTER,	}	Selectmen.
ALLEN ROWE,		
JOHN S. HIGGINS.		

FOR THE YEAR ENDING FEB. 28TH., 1873.

The Committee have carefully examined the accounts of the different departments of the town and find them all correct, and respectfully present the following report :
